PAGANI AUTOMOBILI AT THE FUORICONCORSO 2024, A HUAYRA R DISPLAYED IN THE GARDENS OF VILLA DEL GRUMELLO

- *Pagani Automobili will participate in the FuoriConcorso 2024, on Lake Como, on May 25th and 26th.*
- *A Pagani Huayra R will be on display.*

San Cesario sul Panaro, May 16th, 2024 — Pagani Automobili is pleased to announce its participation in the 2024 edition of FuoriConcorso, an event that brings together collectors, dream car enthusiasts, and lovers of speed, beauty, and craftsmanship on the shores of Lake Como on Saturday, May 25th and Sunday, May 26th.

On display: a Huayra R, sculpted in performance

This year, the event is dedicated to “British Racing Green”, the official international racing color of the United Kingdom. Pagani Automobili will pay homage to the timeless elegance of BRG by showcasing a Huayra R in the gardens of Villa del Grumello.

The Track Hypercar features a two-tone configuration in Verde Smeraldo and glossy Black Mamba, with a livery enhanced by stripes in Rosso Dubai, Bianco Malta, and Nero Galante. The door sports a racing circle in Bianco Malta displaying the number 10, while the wheels are gold-colored, and the anodizations are black. The rear active wings bear a custom engraving of the letter ‘R’.

«In 2008, we were working on the Huayra, a very challenging project from both an engineering and stylistic standpoint. After many years, there was an enormous need for freedom, and that is how the Zonda R was born, a track car free from constraints and rules. Beautiful, high-performing, and safe. The Huayra R carries the legacy of the Zonda R as the freest Hypercar we have ever created, the most extreme, the most high-performing». (Horacio Pagani, Founder & Chief Designer of Pagani Automobili)

Inspired by the timeless charm of Le Mans cars and the World Sportscar Championship of the 1960s and 1970s, the Huayra R is a track car developed without rule constraints, with one exception: safety. Designed to deliver uncompromised performance, the naturally aspirated Pagani V12-R engine generates

1000 kg (2204.62 lbs) of downforce at 320 km/h (198.84 mph), with a sophisticated active aerodynamics system that makes the Hypercar a convergence of the highest level of automotive engineering and the most refined aesthetic sensitivity, the ultimate expression of Pagani Automobili's philosophy. The unique design of the collectors and the four iconic exhaust tips make the engine's melody unmistakable, akin to a past Formula 1 single-seater.

A sound so engaging that in 2022 it was awarded the title "Best Noise of the Year" by BBC Top Gear.
